Attendance Counts

ON TIME ALL DAY EVERYDAY

Principals Message

It has been a very busy couple of weeks, with lots of engaging learning taking place. Walking around the school it is wonderful to see a hive of activity and hear the buzz of learning.

Thank you to those parents who joined us in person or over zoom for the parents meetings this week. Keeping strong links between home and school is a vital part of our success as a learning community.

As we move into Ramadan over the next few days it is important that we think about our school value of caring. Looking after those around us and in the wider community, making time to discuss as a family why we observe these values during this time.

Please note during the Holy month of Ramadan school hours will shorten. Gates will open at 7:40 am for children to start entering school ready for learning to begin at 8:00 am and the school day will end at 1:00 pm each day, all children must be collected by 1:15 pm. These times could be subject to change and we will let you know via class dojo if any occur.

We thank you all for your support over the past couple of days with unexpected road closures. The difficulties we have faced are much easier with your understanding and support.

Reminders

Term Dates

Western Holiday
17 April 2022

Eid
1 May 2022
until
5 May 2022

Term 3 Ends
23 June 2022

Work of the Week

Book Week was a blast! It was wonderful to see all of the amazing reading and writing taking place during the week.

One of the moments to remember was our older students coming into the lower years and reading with our students during our PJ Day Big Read

Book
Week

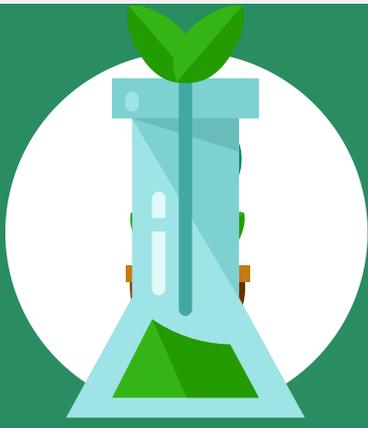

Anything but a Backpack Day

Thinking outside of the box is something we try to do often at NIS D Ring

Students were asked to be creative this month and bring anything but a backpack to school. As you can see there was lots of thinking outside of the box!

Science Week

Science Week focus for this year was Growth. Children were involved in many different activities and experiments over the week, including growing our own plants. The week was ended with a Science Fair in each building showing all of the amazing projects children had done.
