Dear Parents

Please see the above explanation for the new grading on reports. You will see the grading looks different to what it was on previous reports.

The highlighted area is where we expect children to be at each assessment point. It is important to remember that children need to work hard to maintain a grade each term as the objectives required to meet each grade increases as they learn more each term. As the pool of knowledge/skills becomes bigger as they move through the year, a child can achieve the same grade each term and still make progress.

Please read this report with your child and celebrate their achievements. Discuss what they are good at and what they need to work on. All of our children have worked very hard and showed resilience over the past two years, this needs to be celebrated. They all really have been stars!

Have a safe and happy holiday!
