

# EYFS WEST BAY NEWS

6TH MARCH 2023 VOL24

**THIS MONTH'S VALUE IS  
APPRECIATION**

## GARANGAO

Over the past few weeks our whole school theme has been 'Ramadan'. All the children have enjoyed learning about Ramadan through story and activities. Now its time for the children to get excited with the annual Garangao celebrations which occur half way through Ramadan. It is a uniquely Qatari tradition which is celebrated as part of the rich cultural heritage of Qatar. The event occurs on the 14th night in the middle of the month of Ramadan, when parents traditionally sent their children out into the local neighbourhood to collect sweets and nuts. The children are dressed brightly in their Garangao clothing and are expected to sing the special Garangao song before they collect the nuts and sweets. There is much to learn about this cultural tradition. Watch the following film by Doha Film Institute which explains more about the background, and the tradition of "Gara-Gara-Garangao!"

ليلة القرنقعه من أهم العادات الرمضانية الشعبية في قطر ، وتأتي في ليلة الرابع عشر من رمضان احتفالاً باكمال نصف شهر رمضان حيث يرتدي الأطفال زيّاً تراثياً لهذه المناسبة ويتجولون في حيّهم وينشدون أغاني شعبية خاصة بهذه المناسبة ويحصلون على الهدايا وأكياس الحلوى. احتفلت روضة نيوتن العالمية مع الطلاب بالقرنقعه وتم توزيع أكياس القرنقعه على الطلاب لإحياء تراث دولة قطر الحبيبة

## QATAR TOTALENERGIES PLAYGROUND

The Qatar Total Energies Playground is designed to inspire children to learn about Qatar's sustainability efforts, and to better understand topics such as solar and renewable energies, electricity, liquefied natural gas, carbon capture and storage and plastic recycling. Divided into 15 zones, or 'pods', the playground invites families to enter the pods from various pathways - allowing for a 'choose your own adventure' experience that engages, informs and inspires them to learn about the future of energy.

Each of the 15 pods features an interactive element that helps children learn about the science and technology behind energy, from the initial discovery and refining of oil, to the production of natural gas to the focus on renewable energy.

Discover related videos online with Total Energies Qatar and Planète Energies.

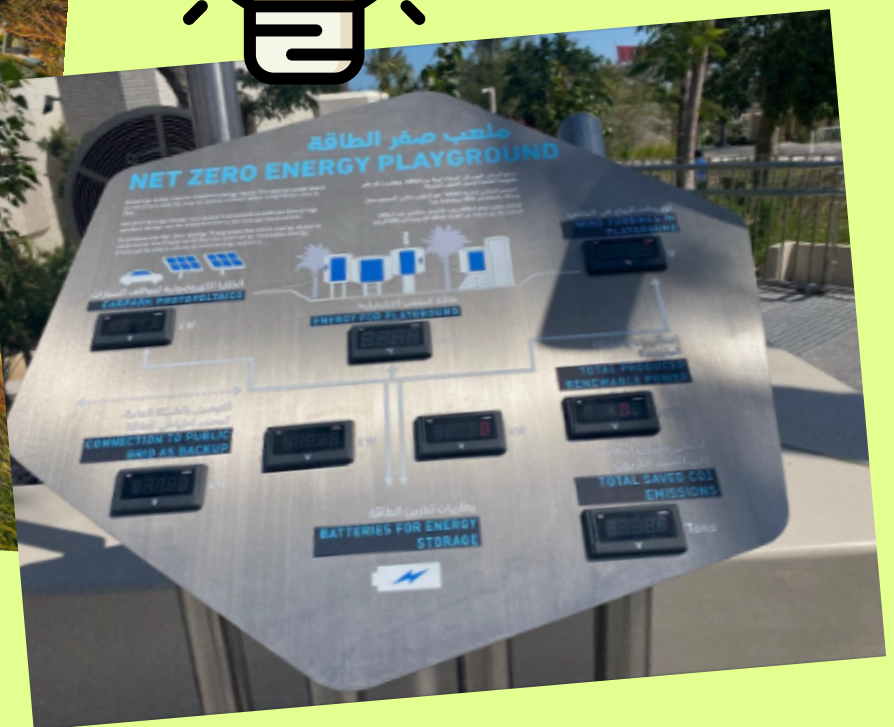

THANKYOU

Muhammed  
Emir F2 Blue .

## Why we like it?

Playground for studying the energy industry for children about Qatar's sustainability efforts, and to better understand topics such as solar and renewable energies, electricity, liquefied natural gas, carbon capture and storage and plastic recycling. There are many game rooms inside, for example, gas and oil, processing plant, molecular changes, natural source, LNG heating and cooling, play area like all around water inside and outside.

## EARLY YEARS PLACES TO GO IN DOHA!

The new page included in our Early Years Newsletter will give our parents the opportunity to share educational and fun places to go with their children over the weekend.

Please share a 'fun' place you have visited with your child and be included on our 'Parents as Partners' page next week. Email

The following information:

- A brief description of the place you visited,
- Why you liked it?
- Information (website, location) and
- Photo of your child at the location

Newton International School

\* Who can join us?

Students from **EYFS ( 4+ Years old )**

\*Duration of the course?

8 sessions (once a week)

\* How much does it cost?

QR. 500 per course

QR. 200 uniform

QR. 150 belt test

**Paid in advance directly to  
Newton accounts department  
Payment by card only**

\* Where & when?

Monday's @ 12:45 to 1:15pm

(School sports hall)

**How Can I Contact**

**Samir Sensei Directly?**

**MOB: 77771627**
