Thinking Like a Scientist
By Jennie Munson

I want to think like a scientist
Observing animals, earth, or sky.
I want to ask good questions
Wondering how, and what, and why.

I want to make smart guesses
Hypothesizing what might happen and when.
I want to do cool experiments
Testing my thinking again and again.

I want to write up all my data,
Recording pictures, charts, or words.
I want to think through all I've done
Drawing conclusions about what I've learned.

Wondering, asking, testing, concluding.
This is what scientists do.
If you want to think like a scientist
Then you must do them too!

Science

Thank you to our amazing teachers and the STEM EXPLORERS team for organising an 'out of this world' Science week for our little Newtons. This week the children have had the opportunity to venture into space as part through the Space Dome workshop, watch an informative Science Show and conduct lots of Science activities in their classroom. We always like to round the week off celebrating our learning and hard work and for this theme we had a Space Party and celebrated our friends who took part in the Science Competition. Great Work Everyone!

Science

CONTEST!

Well Done to all the children in F1 and F2 that took part in the Space Competition. The projects will be on display in classrooms until the end of the year.
