An international community of learners striving for excellence and celebrating success

Healthy Eating Policy

Our Vision

‘An International community of learners striving for excellence and celebrating success’

Our Mission

We aim to provide the highest quality of education possible for students of all abilities. In doing so, we aim to positively encourage each student to achieve academic excellence, enjoy creative diversity, develop critical thinking skills and become lifelong learners and responsible citizens.

To achieve this, we will provide a diverse education in a safe, supportive environment that promotes self-discipline and motivation. We will provide and maintain a calm, trusting and caring atmosphere where teaching and learning are meaningful and developed. We will work in partnership with our staff, students, parents and wider community to achieve our vision.

1. Newton British School aims to help all those involved in our school community to develop positive attitudes to eating and healthy living: children, staff and parents. We wish to promote 'the personal development and well-being of the child and to provide a foundation for healthy living in all its aspects'.
2. To help achieve this, our guidelines will reflect good eating habits. These should be established at an early age as children have a right to learn about different foods so that they may make informed choices throughout their life.
3. The purpose of making healthy food choices enables children to attain their optimum growth, development and health potential.
4. Through a whole school approach, the children, parents and staff will learn about nutrition, healthy eating and healthy living; this will be incorporated throughout healthy eating week in February.
5. Our healthy-eating guidelines hope to enable the children to develop and understand healthy living, and an ability to implement healthy behaviour and willingness to participate in activities that promote and sustain health. This includes physical activity.
6. We feel that, in developing the policy, parents, children, teachers, school staff should be involved in a collaborative way.
7. All classes will receive a least 1 PE lesson per week.
8. School staff will provide supportive attitudes to encourage healthy eating.
9. We will also hold a Healthy Eating Awareness week annually.

Guidelines.

A healthy lunch box includes:

1. At least 2 portions from the bread, cereals group.
2. One portion from the meat and the meat alternatives group.
3. 2/3 portions from fruits and vegetables.
4. One portion from the dairy products.
5. The following foods **do not support** a healthy lunch policy and should be **excluded** from your child's lunch box; crisps, chewing gum, sweets, cakes, biscuits, lollipops, chocolate, chocolate spread, winders, crispy buns and especially peanuts.
6. **Due to the incidence of severe allergy to peanuts and mixed nuts amongst some pupils, we ask you to be vigilant in the following:**
 - Avoid peanuts or any other type of nut in school lunches.
 - Avoid giving peanut butter sandwiches, chocolate spreads containing nuts such as Nutella, nut based breads and cereal/health bars containing nuts or labelled "may contain nut traces" in school lunches.
 - Ask children not to share their lunches.

Healthy snack options (Lower in sugar and fat)

Foods from the top tier of the food pyramid should not be included in your child's lunchbox.

Sometimes it can be difficult to think of alternatives to these. Here are some tasty alternatives.

- Fruit (for example, an apple or banana, handful of grapes)
- Washed, raw vegetable pieces (for example, sticks of carrot, celery, pepper and cucumber.
- Washed, raw vegetables (for example, cherry tomatoes)
- Half a tin of fruit (in its own juice)
- Plain breadsticks, unsalted plain or whole-wheat crackers, crispbreads or water biscuits served with fruit or cheese.
- Plain rice cakes (not chocolate flavoured)
- Natural or low fat yogurt with fresh fruit (fresh, frozen or tinned in its own juice)
- Whole meal or plain scones.
- Sugar-free jelly pots or fruit jelly.
- Pot of custard or rice pudding.
- Pasta or rice
- Cheese
- Hummus
- Olives

Healthy choices of drink include water, milk and unsweetened natural juice. Children should be encouraged to use re-useable containers for safety and litter reasons. Cans and glass bottles are not permitted. According to the HSE; “there are no recommendations for the amount of water or other fluids children need. However, like adults, to stay healthy it is important for children to replace the water they lose to prevent dehydration. It is also important to remember that children will lose more water in hotter climates and when they have been physically active.” <http://www.hse.ie/eng/health/az/D/Dehydration/>
