More Able and Talented Policy

Policy Date: May 2022 – June 2025

Reviewed: June 2022

*“An international community of learners striving for
excellence and celebrating success”*

Introduction

In Newton British Academy we strive to provide a curriculum that is appropriate to the needs, abilities and learning styles of all of our students. We recognise that each child is unique, displaying a range of intelligences and abilities. We plan our teaching and learning in such a way that we enable each child to reach for the highest possible level of personal achievement. This policy helps to ensure that we recognise and support the needs of those students in our school who have been identified as 'more able and talented' according to our set criteria. This policy guides the way in which this happens for our more able and talented students.

Aims

Our aims are to:

- Ensure that we recognise and support the needs of all More Able and Talented students (MAT)
- Enable More Able and Talented students develop to their full potential, promoting academic excellence
- Offer students opportunities to generate and steer their own learning by developing critical thinking skills
- Ensure that we challenge and extend the students through the learning opportunities that we set them
- Encourage students to think and work independently
- Ensure we assess students appropriately to gain an accurate picture of their needs
- Equip our students to be proactive and resilient creating lifelong learners
- Celebrate and acknowledge students who are MAT register

Definition

At Newton British Academy we use the term 'more able and talented' to describe learners who require opportunities for enrichment and extension that go beyond the general cohort of students. More able students given extended opportunities, will not only discover but develop their talents. The term 'more able and talented' will include students who are more able across the curriculum as well of those who show talent in specific areas.

At NBA our MAT categories will be defined in the following way to give clarity and understanding when providing provision:

More Able and Talented

The students are identified as being above the core of the class in any area. These are the top 10% in every class. These learners may be very good in one or more areas of the curriculum.

Most Able and Talented

Most able learners who have the ability to excel in one or more areas of the curriculum. We describe this as the top 5% across a year group (although not necessarily present in every year group).

We will strive to identify those more able and talented students who have the potential to achieve, but do not regularly demonstrate high achievement. We will seek to identify the barriers to that achievement and help students overcome them.

It is important to note that some students will appear on more than one school list e.g. it is possible for a child to appear on the AESN register and still be described as more able and talented. At NBA aim to provide for the needs of individual accordingly.

Identification of More Able and talented Students

Identification of More Able and Talented students will include use of:

- GL Assessment results
- Results of Whole School Assessment Procedures
- Checklists
- Teacher identification
- Discussion with colleagues
- Self/peer identification
- Links with parents (questionnaires)

NBA ensures that the identification process is rigorous, transparent and fair. We do not discriminate against new arrivals to the school or late developers.

Identification Criteria

The grid below can be used as a guide for identifying students to be included on the more able and talented register. More able students will be those within the top 20% of their year group whereas most able students will be those within the top 5%.

Standardised assessment scores will be used but supplemented with a range of other evidence as we are aiming for an all-round judgement from a strong evidence base rather than a snapshot of a student.

Area	More Able (TOP 10%)	Most Able (Top 5%)
Reading Comprehension	GL ST Score 8	GL ST Score 9
Writing	Y1 Writing APP Score 19-20 Y2 Writing APP Score 18-19 Y3 Writing APP Score 19-20 Y4 Writing APP Score 17-18 Y5 Writing APP Score 20-21 Y6 Writing APP Score 19-20	Y1 Writing APP Score 21 Y2 Writing APP Score 20 Y3 Writing APP Score 21 Y4 Writing APP Score 19 Y5 Writing APP Score 22 Y6 Writing APP Score 21
Mathematics	+120 SAS Score	+130 SAS Score
Science	+120 SAS Score	+130 SAS Score
Sport	School team level	National level
Music	Grade 1 & 2	Grade 3 +
Creative/ Artistic	Teacher Recommendation	Teacher Recommendation
ICT	Teacher Recommendation	Teacher Recommendation
Leadership	Teacher Recommendation	Teacher Recommendation

The names of students identified as More Able and talented will be recorded on NBA's More Able and Talented register so that their progress can be specifically tracked. Learners may be identified at any time; as and when talents become apparent.

Once identified, students will remain on the register unless they cease to meet the criteria. At which point they will be transferred to a shadow list, NBA will never completely remove any student from the list as they may be experiencing a period of consolidation or plateau. The list is updated and reviewed by staff three times per year.

Teaching & Learning

Our teachers plan carefully to meet the learning needs more able and talented students. We give all students the opportunity to demonstrate what they know, understand and can do through Quality Teaching First (QTF). We achieve this in a variety of ways when planning for students learning by providing:

- A common activity that allows the students to respond at their own levels
- An enrichment activity that broadens a student's learning in a particular skill or knowledge area
- An individual activity within a common theme that reflects a greater depth of understanding and higher level of attainment
- The opportunity for students to progress through their work at their own rate of learning
- Students are familiarised with a variety of organisational strategies as they move through the school. These strategies can be used by all students, but give due scope to higher achievers
- MAT Students will offered after school MAT lessons in Mathematics once per week in Key Stage 1 and 2 as part of our Extra-Curricular Activity provision
- MAT students will be offered a role within the NBA newspaper group (Newton News)

- Learning is also enriched through regular homework activities linked to the work being undertaken in classes. This offers teachers a further opportunity to set work at the level of individual students

Students who have been placed on the More Able and Talented register are given a More Able and Talented Action & Provision Plan (MATAPP).

Provision Information

SMART Targets

--	--

Classroom Strategies

- Helping students to establish what they already know and what/how they can learn
- Building on what is known and avoiding unnecessary repetition
- Developing independent learning skills; particularly research, questioning and thinking skills
- Providing opportunities for independent learning and individualised approaches
- Allowing different starting points
- Setting open-ended tasks
- Encouraging imaginative creative work
- Allowing time to tackle extended tasks or individual interests
- Varying grouping e.g. mixed ability, co-operative, reciprocal
- Encouraging students to explain how they have learned something new
- Providing enrichment and extension activities beyond the National Curriculum programme of study
- Valuing and rewarding quality
- Providing opportunities to experience a range of educational visits that further enrich and develop learning

- Providing homework activities linked to learning
- Supporting other students during lessons
- Assist with building Learning Objectives and Success Criteria for lessons

NBA also offers a comprehensive range of extra-curricular activities allowing MAT students to extend their learning in a different context to the classroom. Opportunities include a range of sporting, musical and creative clubs.

Roles & Responsibilities

The MAT coordinator is Martin Hutchin, who has overall responsibility alongside the Senior Leadership Team. Key Stage Coordinators have responsibility for carrying out this policy and ensuring that identification, record keeping, planning and home school partnerships are maintained rigorously.

The MAT coordinator will collate data for the whole school register and monitor while school provision and policy development.

The progress of the students including MAT is the prime responsibility of the class teacher. Where there are any concerns about the progress of a student, the class teacher shares these concerns with the Key Stage Coordinator, who informs the MAT coordinator. The MAT coordinator offers advice and support to class teachers in setting appropriate challenges as necessary.

If a parent has a concern about any aspect of provision for MAT students he or she should first raise the issue with the class teacher. If the parent feels that their concerns have not been addressed appropriately they should make an appointment with the MAT coordinator.

Transfer and Transition

Transition between EYFS, KS1, KS2 and Secondary relies on effective communication systems. End of Year transition meetings are held where MAT students is discussed and their data transferred.
